

# Word

Creation speaks loudly,  
so let it be heard!  
It declares God's glory,  
and the might of His word.

**Words** are powerful. When your parents tell you to clean your room or brush your teeth, you know what they want through their words. In a much greater way, God's power is also revealed when He speaks. With words, God created the earth, the sky, the sea, and every living thing within it. With words, Jesus calmed the storm, cast out evil spirits, and raised the dead. And with words, the Holy Spirit continues to tell the good news of Jesus through the church. Because God expresses His will through words, Jesus is "the Word" because Jesus' life reveals His Father's wishes perfectly.
